Scheduled Lasernet Licensing System Maintenance

2025-12-09 - Sunil Panchal - Comments (0) - Lasernet News

Between January 9th and January 18th 2026, the Lasernet licensing system will undergo scheduled maintenance.

Although we aim to minimize disruption, it is possible that the Lasernet licensing system will be temporarily unavailable during this period.

Who Is Not Affected?

Users who have active licenses will not be affected and can continue to use Lasernet.

Who Might Be Affected?

Users who need to complete Lasernet license activations, refreshes, or reactivations during this period might experience temporary delays.

If you urgently need a license during Lasernet licensing system downtime, request a demo license from our Support team or your Lasernet partner.

If your requirement is not urgent, you will be able to complete Lasernet license activations, refreshes, or reactivations yourself after the downtime ends.

Thank you for your understanding as we work to improve our systems.
